TERMS AND CONDITIONS

Conditions of Carriage: The following conditions apply unless otherwise stated above by reference.

Cube Density (CBE) And Long Freight Rule	All rates are subject to 10 lbs per cubic foot (pcf) unless otherwise specified. 10 lbs/pcf =length (in) x Width (in) x height (in) divide by 1728 x 10 . If this amount is more than the actual weight of the shipment then the cubed weight would apply to calculate the freight charges. When it is not possible to load on top of a shipment, the cube dimensions for that shipment will be based on a minimum height of 8 feet. Any piece or bundles that is less than 12" in diameter and weighs less than 250lbs will be rated at actual weight. Any piece or bundle in excess of 12" in diameter and heavier than 250lbs that, because of its dimension does not allow 2 skids to be placed side by side, will be cubed at 4' wide by 4' high by the actual length.
Linear Foot Rule	1000 lbs per linear foot for shipments occupying 10 feet or more of trailer. When the freight occupies 10 feet of trailer space or more, or is packaged in such a way that other freight cannot be stored on top of or on either side of it, the chargeable weight will be calculated at 1000 lbs per linear foot of space use.
Liability	The maximum liability for goods lost, damaged or delayed will the lesser of the actual value of the goods at the time and place of shipping and $2.00 per pound ($4.41 per kilogram) based on the weight of the goods lost, damaged or delayed. **Minimax will not be responsible for any damages or claims for shipments of new empty cans or bottles that are piled more that 6 ft high on skids.**
Pickup/Delivery	Minimax Express shall not be liable for fines or penalties that may be imposed by the consignee or shipper resulting from a missed pickup, late delivery, missed appointment or lost and damaged freight.
Identification and Packaging of Freight	Minimax Express shall not be liable for loss or damage caused by fault or negligence of the shipper and/or consignee, such as the inadequate identification of goods, improperly packaged goods, packaging failure or damage caused during the palletizing of products. Freight should not exceed the dimensions of the pallet.
Concealed Damage	The consignee must advise Minimax Express of concealed damages no later than 24 hours after the goods have been received. Concealed damages are damages found inside the packaging that are not visible on the outside of the packing at time of delivery.
Counting of Goods	Minimax Express is not liable for the counting and condition of goods delivered or picked up where our drivers have no access to the loading or unloading areas. It is the consignee's responsibility to count the goods at the time of delivery.
